### Ground floor in Estepona Puerto

A development of 51 apartments with 2, 3 and 4 bedrooms, with the best qualities, including a garage and storage room, one step away from all services. Estepona, located between Sierra Bermeja and the Mediterranean, falls in love with all of us who have the pleasure of walking its streets and beaches. Erected as "The garden of the Costa del Sol", its old town offers us the possibility of admiring its majestic gardens, which offer us the absolute variety of colorful flowers that highlight the Andalusian identity of its renovated white streets. It also invites us to live its streets, betting on culture and art, offering us artistic murals on the facades of buildings and sculptures by renowned artists. You must visit the Orchidarium of Estepona, a beautiful botanical park that has more than 5,000 plants, including 1,300 species of orchids from all over the world. Estepona's climate allows us to live outdoors, it has such a varied environment that it allows us to practice countless sports both on the beach and in the mountains, from excursions, walks, trekking, kite surfing or playing golf. The coast of this beautiful city, consists of 21 kilometers and offers us a total of 17 beaches, equipped to guarantee the safety of our neighbors and tourists.
